

# Natural Path Sanctuary Winter Burial Workshop

**January 16, 2024**

**10am-Noon**

During the winter season, when snow blankets the Sanctuary and the cold winds blow, how do we ensure a safe winter burial?

Join the NPS staff for a mock winter burial. We will show you how a body is shrouded, transported to the burial site and lowered into the ground. We will present some of the challenges the weather poses and the measures taken to make a winter burial as smooth as possible--providing a peaceful resting place for your loved ones--even during the coldest Wisconsin winters.
